

Dear Everyone,

Some of you may remember that last year I started working on a project that aims to help close the gap between the western and alternative medicines, the title of the project being "[Facilitating a Paradigm Shift in Medicine for the Wellbeing of People](#)".

I already got few donations and the amount gathered so far is enough to subsidize a two month training of one GP/Physician/Medical specialist in Qigong and self healing.

So, if you know a medical doctors who would be interested and open enough to try the way of Qigong, self healing, Qi-therapy and Ren Xue, please forward this invitation onto them. The only condition is that the applicants must hold qualifications in western medicine and their day to day job should include treating of patients or providing preventive care / health education to patients.

Initially the scope of the project was limited to New Zealand residents only. However since the donations I received came from overseas I decided to make the scholarship available also to medical doctors from abroad.

The scholarship is for training in Qigong and self healing and covers the first one or two levels of Yuan Gong system as well as the attendance to classes for practice and group healing sessions with total cost of up to NZ\$250. The nominees can attend the course either in person (recommended if they live locally) or on-line (the course will be broadcast via Internet). For more info about the first level of the training please follow the link [http://self-healing.co.nz/10-Qigong-30-Learning-Opportunities---inf---.aspx#Yuan\\_Gong](http://self-healing.co.nz/10-Qigong-30-Learning-Opportunities---inf---.aspx#Yuan_Gong) . After completing Level 1 of Yuan Gong (4 weeks) one can choose either to continue with Level 2 of the system or keep practicing for a while and attending the group sessions for Qigong practice and Qi-therapy.

The applications will be considered on a first come first served base.

To **Apply** for the scholarship please fill in the application form here:
